10. BRIEF SCHEME OF THE LAW-
Before filling out the form, you are advised to read the following-
(1) Computation of total income
(a) “Previous year” is the financial year (1st April to the following 31st March) during which the income in question
has been earned. “Assessment Year” is the financial year immediately following the previous year.
(b) Total income is to be computed as follows, in the following order:
   (i) Classify all items of income under the following heads of income-
      (A) “Income from house property”; (B) “Profit and gains from business or profession”; (C) “Capital gains”; and
      (D) “Income from other sources”. [There may be no income under one or more of the heads at (A),
      (B), (C) and (D)].
   (ii) Compute taxable income of the current year (i.e., the previous year) under each head of income separately
      in the Schedules which have been structured so as to help you in making these computations as per
      provisions of the Income-tax Act. These statutory provisions decide what is to be included in your
      income, what you can claim as an expenditure or allowance and how much, and also what you cannot
      claim as an expenditure/allowance.
   (iii) Set off current year’s headwise loss(es) against current year’s headwise income(s) as per procedures
      prescribed by the law. A separate Schedule is provided for such set-off.
   (iv) Set off, as per procedures prescribed by the law, loss(es) and/or allowance(s) of earlier assessment year(s)
      brought forward. Also, compute loss(es) and/or allowance(s) that could be set off in future and is (are) to
      be carried forward as per procedures prescribed by the law. Separate Schedules are provided for this.
   (v) Aggregate the headwise end-results as available after (iv) above; this will give you “gross total income”.
   (vi) From gross total income, subtract, as per procedures prescribed by the law, “deductions” mentioned in
      Chapter VIA of the Income-tax Act. The result will be the total income. Besides, calculate agricultural
      income for rate purposes.

(2) Computation of income-tax, surcharge, education cess including secondary and higher education cess and interest in
respect of income chargeable to tax
(a) Compute income-tax payable on the total income. Special rates of tax are applicable to some specified items.
Include agricultural income, as prescribed, for rate purposes, in the tax computation procedure..
(b) In case, the tax liability computed as above is less than 10% of book profit, the company is required to pay
minimum alternate tax (MAT) under section 115JB at the rate of 10% of the profit. The excess tax so paid is
allowable to be carried forward for credit in the year in which tax liability under the normal provisions of the Act
is more than MAT liability. Such carry-forward is allowable upto 5 years
(c) Add surcharge at the rate of 10% of the tax liability computed as explained in (a) and (b) above. However, the rate
of surcharge is two and half per-cent in case of a company, not being a domestic company
(d) Add Education Cess including secondary and higher education cess at the rate of 3% on the tax payable plus
surcharge
(e) Claim relief(s) as prescribed by the law, for double taxation and calculate balance tax and surcharge payable.
